

5-CEREAL BREAD (POKERPAN MAGRO)

BREAD MADE FROM FIVE CEREALS

DIFFICULTY LEVEL

CEREAL BREAD DOUGH

INGREDIENTS

POKERPAN	g 10.000
WATER	g 6.000-6.500
FRESH YEAST	g 400

PREPARATION

Knead POKERPAN and yeast with 2/3 of the dose of water for a few minutes in a kneading machine (better if you use a plunging arm kneading machine or a spiral one).

Then, pour the remaining water in 2-3 times and make sure that all the water is absorbed.

Keep on kneading until the dough is smooth and elastic (consider that the kneading time is about 15 minutes in spiral kneading machine, while the use of a plunging arm kneading machine requires a longer kneading time).

When ended the kneading (temperature of the dough of 26-27°C), cover the dough with a cloth and let it rest for 20 minutes at room temperature (22-24°C). (RESTING TIME).

FINAL COMPOSITION

When the resting time is over, divide the dough into portions (usually 70g or 500g of dough for each portion), then roll each portion up tight to shape loaves.

Let the loaves rise in the proofer room at 28-30°C, with relative humidity of the 70-80%, for about 60 minutes.

At the end of the rising time, bake the 70g loaves for 25 minutes and the 500g loaves for 50 minutes, both at 220°C.

It is advisable to open the valve towards the end of the baking so as to allow bread to dry out well.

N.B.

The recommended times for resting and rising refer to 500g portions, so they have to be slightly lengthen for bigger portions and shorten for smaller portions.
